

Southwest Calgary Ring Road

Construction Advisory

July 28, 2017

Start of Earthworks near Cullen Creek

Activity and Location: KGL Constructors will commence construction near Cullen Creek in the first week of August. Initial activities will consist of earthworks to build the abutments for the new bridge crossing the Elbow River and for the installation of the culvert in Cullen Creek. Other activities planned for 2017 include driving piling and drilling shafts for structure foundations. Bulk earthworks and bridge construction will continue through 2019.

Site impacts are expected to include:

- An increase in noise during working hours
- Equipment working in and around the area
- Equipment entering the site using the closed parking area
- Equipment exiting the site using the existing access road (to Highway 8)

The work will adhere to all provincial and federal permit requirements and be carried out under the supervision of qualified environmental staff. KGL protects the environment through the strict implementation of its Environmental Construction Operation Plans.

Scheduled Implementation Date: July 31, 2017

Scheduled Completion Date: Bridge completion in 2019

Hours of Work: Monday to Saturday from 7:00 a.m. to 10:00 p.m. and Sundays and holidays from 9:00 a.m. to 10:00 p.m.

KGL would like to thank you for your cooperation and patience during this period of construction.
